### PROFESSIONAL SUMMARY

---

Software Developer with hands-on experience building and maintaining full-stack web applications across both frontend and backend. Proficient in Java, Spring Boot, Node.js, JavaScript, TypeScript, and React, with practical experience developing RESTful APIs, integrating frontend components with backend services, and working with relational databases such as MySQL, SQL Server, and Oracle.

Strong attention to detail when translating UI/UX designs into clean, responsive interfaces, with a proven focus on user experience, code quality, and application reliability. Experienced integrating tools such as Sentry for error tracking and PostHog for product analytics, and implementing features like dark mode and internationalization (i18n) to improve the end-user experience.

Proactive and collaborative developer experienced working in Agile/Scrum teams using Git for version control with branching strategies, pull requests, and code reviews. Familiar with cloud platforms such as Azure and Firebase, and containerized development with Docker. Scrum Fundamentals certified, with effective communication skills in English (B2+) and Spanish (native), and a continuous learning mindset oriented toward delivering high-quality, maintainable software.

### PROFESSIONAL EXPERIENCE

---

#### Software Developer

Spazio (EventPlus) | Remote – Costa Rica | January 2025 – Present

Develop and maintain full-stack features for EventPlus, an event management platform, as part of a 7-member Agile/Scrum team (3 developers, 3 QA, 1 lead). Contribute to frontend and backend development, API integration, product analytics, and delivering features aligned with business requirements.

- Built 5+ user-facing features including event agendas, registration flows, bootcamp enrollment, and customization pages, translating Figma designs into pixel-accurate, responsive interfaces integrated with backend services and RESTful APIs.
- Improved application reliability by integrating Sentry for error tracking, capturing 13 previously undetected bugs within the first month and accelerating issue resolution across the development team.
- Enabled data-driven decision-making by implementing PostHog for product analytics, tracking user flows, screen usage, and active users to support feature prioritization.
- Implemented dark mode and internationalization (i18n) supporting English and Spanish, improving accessibility for approximately 20% of users accessing the platform in English.
- Developed and consumed RESTful APIs for event data, user registration, and customization features, writing SQL queries and ensuring stable integrations with relational databases.
- Participated actively in Agile delivery including sprint planning, stand-ups, and retrospectives, contributing to code reviews and collaborative workflows using Git with branching strategies and pull requests.

#### Software Development Intern (Academic Project)

Universidad Cenfotec – Proyecto en Empresa | San José, Costa Rica | September 2024 – December 2024

Developed software solutions as part of an academic project simulating a real business environment. Assumed different roles within the development team, participating in analysis, design, implementation, and testing of applications using collaborative practices aligned with software engineering principles.

- Applied core software engineering concepts including design patterns, data structures, and algorithms in a real-world oriented project.
- Strengthened cross-functional teamwork, communication, and problem-solving skills.

### **Operations Assistant / Event Staff**

Publitticket | San José, Costa Rica | June 2018 – March 2020

Supported event operations by managing ticket sales processes and coordinating with team members to ensure accurate transactions and reliable service delivery during high-demand events.

- Ensured accuracy and reliability in ticket sales processes during high-demand events.
- Coordinated tasks within a limited team under time-sensitive conditions.

## **EDUCATION**

---

### **Bachelor's Degree in Software Engineering**

Universidad Cenfotec | Completion: 2025

### **Higher Technical Degree in Software Development (Técnico Superior en Desarrollo del Software)**

Universidad Cenfotec | Completion: 2022

### **Scrum Fundamentals Certified (SFC)**

SCRUMstudy | Completion: April 2022

## **SKILLS & EXPERTISE**

---

### **Backend**

- Java
- Spring Boot
- Node.js
- Python
- Kotlin
- C++
- RESTful APIs
- Hibernate/JPA

### **Frontend**

- React
- Angular
- JavaScript
- TypeScript
- HTML
- CSS
- Tailwind CSS
- Bootstrap

### **Databases**

- MySQL
- SQL Server
- Oracle

- SQL
- NoSQL

## **Testing**

- JUnit
- Mockito

## **Dev Tools**

- Git
- Docker
- Maven
- Gradle
- Linux

## **Cloud & Platforms**

- Azure
- Firebase

## **Tools & Environments**

- IntelliJ IDEA
- Visual Studio Code
- MySQL Workbench
- SQL Server Management Studio

## **Methodologies & Practices**

- Agile Methodologies (Scrum)
- Software Development Lifecycle (SDLC)
- Design Patterns
- Code Reviews

## **Soft Skills**

- Problem Solving
- Teamwork
- Communication Skills
- Adaptability
- Time Management
- Responsibility
- Attention to Detail
- Customer Focus
- Process-Oriented Thinking
- Stress Management

## **LANGUAGES**

---

Spanish – Native

English – B2+
